andBeyond Grumeti Serengeti River Lodge Tanzania

Tasked with reimagining the andBeyond Grumeti Serengeti River Lodge after it flooded in April 2020, Fox Browne Creative's modern makeover of the 10-room luxury camp (with one family suite) follows the contours of the Grumeti River while retaining its natural rustic quality. The result is a revitalized safari camp that is sensitive to its surroundings, thanks to vibrant interiors and patterns that nod to its location.

Casa TO La Punta Zicatela, Oaxaca, Mexico

Drawing from the natural surroundings of surf capital La Punta Zicatela, the nine-room Casa TO stars raw concrete archways and circular openings that give way to climbing plants and vegetation, as well as a central infinity pool and solarium. Sustainability is also top of mind, thanks to a water treatment plant to reuse wastewater, solar panels, a zero plastics policy, and furniture built by expert carpenters from nearby Puebla, Guadalajara, and Oaxaca.
