

HOTEL CASA 1800
GRANADA
★★★

Hotel Casa 1800 Granada is located in the heart of the city centre, in Albaycin neighbourhood. This area protected by the UNESCO where the access is not allowed by private car, indeed, the main entrance is over a pedestrian street. If you are coming by car, we highly recommend you not to follow the instructions from your GPS. **Instead, please follow the route offered in the next page of this document, as the details are easier and more direct than the ones provided from the GPS.** With these instructions, you will arrive to "Plaza Puerta Real", where we have a pre-arranged price of 21€, being the closest and most accessible parking from our hotel. If the entrance is blocked with the barrier, just say to the gentleman at the reception you are our guest and you will be allowed to come in into the parking.

Do not worry about the forbidden access signs on the recommended streets; we will authorize your car at your arrival. We just need you to write down your license plate number in order to register it during the check-in at the reception (exclusive service for hotel guests).

Once you have parked, we recommend you to take a taxi just at the exit of the parking that would cost you around 5€ (ask the taxi driver to drop you at Pisas Street which is the closest point that they can arrive). If you prefer going walking, it will take you around 8-10 minutes.
