WHO PREPARED THIS GUIDE?

This guide has been written and designed by the Autism Friendly association, a non-profit organization that adapts and certifies environments as friendly and accessible for autistic people.

Discover more **AUTISM FRIENDLY** environments at www.autismfriendlyclub.com or by scanning the QR code.

WHAT DOES IT MEAN TO BE AN AUTISM-FRIENDLY ENVIRONMENT?

A space certified as Autism Friendly must meet the following requirements:

It must have signage and visual aids that allow orientation around the establishment and decision-making.

Apply specific protocols to care for autistic people.

Workers receive training on neurodivergence, especially on Autism Spectrum Disorder.

These requirements are reviewed annually to ensure they continue to be met.
