To provide the products and services you request

We need to process your personal data so that we can manage your account or booking, provide you with the products and services you want to buy and help you with any orders and refunds you may ask for.

To manage and improve our products, services and day-to-day operations

We use personal data to manage and improve our products, websites, mobile apps, customer loyalty or recognition programme(s) and other services.

We monitor how our services are used to help protect your personal data, detect and prevent fraud, other crimes and the misuse of services. This helps us to make sure that you can safely use our services.

We may use personal data to respond to and to manage security operations, accidents or other similar incidents, including medical and insurance purposes.

We may use personal data to carry out market research and internal research and development, and to develop and improve our product range, services, shops, IT systems, security, know-how and the way we communicate with you.

We use CCTV images to help maintain the safety of anyone working in or visiting our shops, premises and other buildings, and for the prevention, detection and prosecution of criminal offences. We may also rely on the images to establish, exercise or defend our legal rights.

To personalise your experience

We want to ensure that marketing communications relating to our products and services, and those of our suppliers, retail partners and the [TUI Group](#), including online advertising, are relevant to your interests.

To do this, we may use your personal data to better understand your interests so that we can try to predict what other products, services and information you might be most interested in. This enables us to tailor our communications to make them more relevant and interesting for you.

Looking at your browsing behaviour and purchases helps us to better understand you as a customer and it allows us to provide you with personalised offers and services.

We may also measure your responses to marketing communications relating to products and services we offer, which enables us to offer you products and services that better meet your needs as a customer.

If you do not want to receive a personalised service from us, you can change your preference online, over the phone or by writing (e.g. email) to us at any time. We will update our records as soon as we can.

To make contact and interact with you

We want to serve you better as a customer so if you contact us, for example by email, post, and phone or via social media, we may use personal data to provide clarification or assistance to you.

We need to process your personal data so that we can manage any promotions and competitions you choose to enter, including those we run with our suppliers and retail partners. For example, if you win a prize.

We may invite you to take part in customer surveys, questionnaires and other market research activities carried out by the [TUI Group](#) and by other organisations on our behalf.

Marketing communications

From time to time we may send you relevant offers and news about our products and services in a number of ways, including by email. We may also send you information about other companies' products and services that we believe may be of interest to you. We will only do this if you previously agreed to receive these marketing communications.

When you book or register with us we will ask if you would like to receive marketing communications. You can change your marketing preferences by writing to us at any time: Email to dpo@nordotel.com or in writing to Ctra. Gral. del Sur, Km. 44, 35107, S. Bartolomé de Tirajana, Gran Canaria, Spain . Of course, the choice is entirely yours, but if you say you do not want to receive marketing information from us this will prevent you from receiving great offers or promotions that may be of interest to you.

You may still receive service-related communications from us. For example, confirming bookings you make with us and providing important information about the use of our products or services.

Market research

We like to hear your views to help us to improve our products and services, so we may contact you for market research purposes. You always have the choice about whether to take part or continue in our market research.

Sharing personal data with suppliers and retail partners

In order to provide products or services requested by you we may share personal data with suppliers of your travel arrangements, including airlines, hotels and transport companies.

We also work with carefully selected suppliers that carry out certain functions on our behalf. For example, companies that help us with IT services, storing and combining data, marketing, market research, processing payments and delivering products and services.

We may need to share personal data to establish, exercise or defend our legal rights; this includes providing personal data to others for the purposes of preventing fraud and reducing credit risk.

When we share personal data with other organisations we require them to keep it safe, and they must not use your personal data for their own marketing purposes.

We only share the minimum personal data that enable our suppliers and retail partners to provide their services to you and us.

Sharing personal data with regulatory authorities

So that you can travel, it may be mandatory (as required by government authorities at the point(s) of departure and/or destination) to disclose and process your personal data for immigration, border control, security and anti-terrorism purposes, or any other purposes which they determine appropriate.

Some countries will only permit travel if you provide your advance passenger data (for example Caricom API Data and US Secure Flight Data). These requirements may differ depending on your destination and you are advised to check. Even if not mandatory, we may assist where appropriate.

We may share the minimum personal data necessary with other public authorities if the law says we must, or we are legally allowed to do so.

If the transfer or sale goes ahead, the organisation receiving your personal data can use your data in line with this Privacy Notice.

Protecting your personal data

We know how important it is to protect and manage your personal data. We take appropriate security measures to help protect your personal data from accidental loss and from unauthorised access, use, alteration and disclosure.

The security of your data also depends on you. For example, where we have given you or where you have chosen a password for access to certain services, you are responsible for keeping this password confidential.

The personal data that we collect from you may be transferred to, and stored at, a destination outside the European Economic Area ("EEA"). It may also be processed by organisations operating outside the EEA who work for us or for one of our suppliers. We put in place appropriate protections to make sure your personal data remains adequately protected and that it is treated in line with this Notice. These protections include, but are not limited to, appropriate contract clauses, such as [standard contract clauses approved by the European Commission](#), and appropriate security measures.

Data retention

We will retain your personal data for only as long as it is necessary for the uses set out in this Privacy Notice and/or to meet legal and regulatory requirements. After this period, we will securely erase personal data. If data is needed after this period for analytical, historical or other legitimate business purposes, we will take appropriate measures to anonymise this data.
